

GREG BAKER, left, business manager for the Local Union 577, recently presented Scott Weyenberg, with an International Brotherhood of Electrical Workers (IBEW) Lifesaving Award during annual spring banquet. Scott is a voice/data/video technician at Elmstar Electric Corp. in Kaukauna. On July 19, 2007, Scott was working on a U.S. Bank site in Sheboygan. During his lunch break, Scott walked out to a nearby pier on Lake Michigan and noticed a young boy on the shore gazing out into the lake where another boy was struggling in the water trying to get to shore. Scott sensed that something was terribly wrong and rushed to help. Scott jumped in to assist and pulled the boy to safety. Photo submitted by Rivers Edge Marketing
